

Boston dedicated solar battery cabinet company

Overview

Boston Solar installs solar battery storage systems for homeowners throughout Massachusetts and southern New Hampshire. Our team of experienced professionals is dedicated to providing reliable and efficient energy solutions that help our clients save money on their electricity bills. As a leading solar solutions provider in Massachusetts, Rhode Island, and Connecticut, Beacon Solar Construction is actively engaged in the advancement of battery storage systems. Compare review ratings, review totals and genuine customer feedback to see which contractor is the best fit. Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. This place is called a "battery enclosure", or what is. The Boston Solar Team has delivered customized solar energy solutions to over 6,000 households in New England for the past 13 years. Recently, we have expanded into the commercial market, completing projects for small businesses and even the iconic Fenway Park, home of the Red Sox.
