computers in your RV? : r/GoRVing

My only advice: Use DC power directly. PCs are natively DC and so is your RV so using an inverter to convert DC to AC to plug in a computer whose power supply will convert that power back to DC is wasteful. What you need is a DC power supply. It's dead simple with a laptop as they use external AC adaptors that are easily replaced.

Xantrex | Why Solar Power is a Game-Changer for ...
