

Electric vehicle safety brussels

Overview

The Brussels-Capital Region has announced a complete ban on shared electric scooters (e-scooters), set to take effect in 2027. The decision follows a sharp rise in accidents, pedestrian disruption, and the use of rental e-scooters in criminal activities, including 25 shootings in. To make the switch easier, the Brussels-Capital Region is launching electrify. We're here to bring a breath of fresh air to Brussels and fight climate change at the same time! By switching to sustainable transport.

Brussels (Brussels Morning Newspaper) – From 2026, Belgian electric car owners can voluntarily include battery status on the Car-Pass. Ministers Rob Beenders and Jean-Luc Crucke aim to boost transparency and the second-hand EV market. Recognizing this, the European Commission's Sustainable Transport Forum (STF) Task Force 6 has developed comprehensive guidelines aimed at identifying and mitigating fire risks, as well as ensuring the safe installation of recharging infrastructure in. Brussels bans shared e-scooters from 2027 after 666 injuries in 2025, a 25% rise in accidents, and criminal use in 25 shootings. Join Paris, Madrid, and Prague in crackdown. As previously disclosed, the investigation found that the BEV value chain in China benefits from unfair subsidization which is causing threat of economic injury to EU producers of BEVs. BRUSSELS (Belgium): For-hire electric scooters will be banned in Brussels starting next year, authorities in the Belgian capital said, citing safety.
