

Energy company uses 5MW Qatari energy storage containers

Overview

EVE Energy showcased its 5MWh long-cycle ESS and modular energy storage solutions at RE+ 2025, emphasizing innovation and cost efficiency. It features a 5 MVA transformer, 2x2.5 MW power conversion. The project in the title is a distributed energy storage power station newly built by Aulanbel (Brand Hanxingcn) in Hefei Haier Industrial Park, with an installed capacity of 5MW/10MWh. It adopts lithium-ion battery technology. The aim is to help Haier Refrigerator Industrial Park regulate. EVE Energy made a notable appearance at RE+ 2025, held from September 9–11 in Las Vegas, where it introduced two major energy storage innovations. The company globally launched its 5MWh Long-Cycle ESS, promising “5 years zero degradation,” and unveiled overseas its 836kWh Split Modular Cabinet. The world's largest rolling stock manufacturer says that its new container storage system uses LFP cells with a 3. Let's unpack why their size and design are making.
