

Free to use ev chargers

Overview

Out of more than 120,00 EV chargers on Zapmap, we found that – as of May 2025 – 1,837 were free to use. Below you'll. Learn how to find free EV chargers and discounted options. So where are they all?

Well, we've broken down some of the figures for you. If you're brand new to electric vehicles or you've been driving one for years, you'll learn practical tips that'll keep. But how free is “free,” where do you actually find these chargers, and is it worth planning your life around them?

Free EV charging is real, but it's patchy, often limited by time or kWh caps, and typically supported by someone else's business model (employers, retailers, utilities, or government. Open Charge Map is the global database of EV charging stations, managed and populated by EV drivers from all over the world. See population, income & demographics for any area you map — free to start Plan an electric vehicle road trip with up to 8 stops. RadiusMapper draws the driving route and overlays every public charging station within 15 miles of the corridor, so you can pick the right place to plug in.
