

Long-lasting outdoor cabinet for microgrid energy storage in drone stations

Overview

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are pre-assembled for quick deployment and can operate reliably under. Individually configurable outdoor cabinets that provide optimum protection for battery systems against weather conditions, vandalism, and break-ins. Custom-made cabinets and enclosures are essential for projects that have specific requirements in terms of size, material, protection type. Project features 5 units of HyperStrong's liquid-cooling outdoor cabinets in a 500kW/1164. 8kWh energy storage power station. The "all-in-one" design integrates batteries, BMS, liquid cooling system, heat management system, fire protection system, and modular PCS into a safe, efficient, and flexible. Engineered for demanding applications requiring unwavering power reliability and operational cost efficiency, our cutting-edge Liquid-Cooled Battery Cabinet delivers exceptional performance and longevity. Voltsmile specializes in high-performance, weatherproof, and intelligent Outdoor Energy Storage All-in-One Cabinet. The 112kWh outdoor energy storage system offers a robust, weatherproof solution for backup and off-grid power.
