

Ranking of U S rooftop photovoltaic panel manufacturers

Overview

The top five solar panel manufacturers in the U. We've rated thousands of solar panels made by dozens of manufacturers based on efficiency, power output, warranty, and other important specs that determine how much electricity a panel can squeeze out over its lifetime. According to the US Department of Energy, in Q1 of 2025, the US installed a capacity of 10. Texas and Florida recorded. This guide gives a clear overview of the top 10 U. You will see each company's production capacity, technology strengths, factory locations, and domestic-content advantages. The goal is to help project developers, installers, and distributors choose reliable. But the Inflation Reduction Act (IRA) of 2022 turbo-charged the U. Additionally, tariffs on foreign-made solar products helped level the playing field, making American-made. EnergySage, a residential PV marketplace operator, has released a review of the top solar panel brands in the US market.
