

Telecom site solar Fiji

Overview

Details were released on 75 sites to serve isolated communities in Fiji that lack access to reliable and affordable electricity, with plans to construct hybrid solar PV mini-grids through an estimated \$60M USD in capital investment. For over 100 years, our advanced telecommunication, internet and ICT solutions have kept Fiji connected. At home and in business, discover how you can connect with Telecom Fiji. We listen and learn from our customers at the same time as keeping right up to date with the latest training from our suppliers: Victron Energy, Hanwha Q-Cells and Narada Power - to name a few. The resulting mini-grids will support residential energy needs. Our specialities in Fiji include Solar Energy, Renewable Energy, Hybrid Energy, Distributed Generation, Energy Storage, Off-Grid Energy, Remote Communities, HV, Substations, Grid Connections, Battery Energy Storage Systems (BESS), and Microgrid.
