

The first batch of solar energy storage projects

Overview

After several months of research, consultation, and policy revisions, in July this year, the list of the first batch of solar-plus-storage demonstration projects to be launched in Xinjiang was released. A total of 36 projects were selected at a total scale of 221MW/446MWh. Recently, Qinghai Company's Hainan Base under CHINA Energy in Gonghe County has successfully connected the fourth phase of its 1 million kilowatt 'Photovoltaic-Pastoral Storage' project and the 200,000-kilowatt photovoltaic project to the grid for electricity generation. There are over 1,450 major energy storage projects currently in the database, representing more than 125,000 MWh of capacity. The list of projects includes generation-side, behind-the-meter, and grid-side applications, as well as. The 150 MW Andasol solar power station is a commercial parabolic trough solar thermal power plant, located in Spain. This is a list of energy.
