

Wind-resistant type of telecommunications energy storage cabinet for construction sites

Overview

Choose cabinets with high IP and NEMA ratings to protect against dust, moisture, and harsh weather. This ensures your telecom systems remain reliable in challenging environments. Use UV-resistant materials like polycarbonate and stainless steel to prevent degradation from. The WOD-62DXC NEMA enclosure (63"H x 32"W x 30"D, 33 RU) is a heavy-duty, all-weather solution designed for telecom and mission critical applications. Available in NEMA 3R. Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions. Our engineered protective building solutions comply with current editions of IBC, UBC, SBC, BOCA, NEC, ACI. This 304 SS outdoor energy cabinet is manufactured from premium 304 stainless steel, offering excellent corrosion resistance and strength for demanding outdoor environments. Built entirely in the United States with precision engineering, these outdoor shelters safeguard your fiber networks, 5G infrastructure.
